

GROUP 3

RELEASE 2 MARKS

Following are the results of your final project marking.

The project was tested in Android Studio with the following setup:

Android studio version: Ladybug feature drop 2024.2.2

Compile SDK: 35

Min SDK: 24

Target SDK: 35

Java Version: 11

Gradle plugin version: 8.8

Gradle version: 8.10.2

In some cases where the project failed to build using Ladybug, it was tested using Narwal.

After cloning a fresh copy of your repository, features were tested in order that they appear in the "Done" column on your group's Trello board. Testing terminated when a feature that failed to pass the "happy path" was encountered.

Each feature was marked as follows:

zero (0)--Missing, or not graded due to earlier failures.

51 pts--Not really: present, but fails happy path.

59 pts--Somewhat: fails boundary values or devious input.

63 pts--Mostly: no failures, but some rough spots.

71 pts--Mostly: no failures.

79 pts--Definitely: no failures, but not quite ready for Play Store.

95 pts--Excellent: no failures, Play Store ready.

Extra features were considered only if all other features achieved "Mostly." Additionally, extra features only result in extra credit if they are marked "Mostly."
